LES ANNALES DE LA FACULTE DES SCIENCES

ISSN:0251-4192

INVITATION TO SUBMIT AN ARTICLE

Dear authors,

You are invited to submit an article to the **Annales de la Faculté des Sciences (AFS)**, for which **number 1** (Volume 42) to be published in soft copy in November 2017 is under preparation. The journal publishes articles in both french and english in five series:

- Chemistry
- Mathematics and Computer Science
- Physics
- Biological Sciences
- Soil Sciences

AFS is a fast track peer reviewed journal for original research articles as well as review articles in all areas of sciences. The average review time for the **AFS** for all the series of the journal is **two months** from the point of submission until a final decision has been reached.

AFS is published using an open access publication model, meaning that all interested readers are able to freely access all articles of the journal online at <http://www.uy1.uninet.cm/> and in the heading Faculty of Science without the need for a subscription and the publication of hard copy. The journal has a distinguished editorial board composed of leading researchers from around the world. A current list of the journal's editors can be found at <http://www.facsciences.uninet.cm/>.

Manuscripts should be submitted to the journal online at the following addresses: vd_drc_fs@uy1.uninet.cm and bessimbi@gmail.com. Each manuscript submitted will undergo a peer review procedure and once it has been accepted, it will be referenced and published immediately online at http://www.facsciences.uninet.cm/index_journal.html, prior to the publication of the soft copy.

The editorial committee of the **Annales de la Faculté des Sciences** thanks you for choosing this publication medium. Please do not hesitate to contact us at vd_drc_fs@uy1.uninet.cm or bessimbi@gmail.com if you have any query about the journal.

The Dean of the Faculty of Science

Editor in Chief of the AFS
